

Day 4: Key Features of the Dynamic Marketplace

This document provides an overview of the core functionalities in the dynamic marketplace. Focused on modularity and integration with Sanity CMS, the platform offers various dynamic features to ensure scalability, flexibility, and a seamless user experience.

1. Product Listing Page

The Product Listing Page showcases all available products, fetched dynamically from Sanity CMS. It supports sorting, filtering by price, category, and popularity, and integrates pagination for handling large datasets. The responsive design ensures smooth display across devices, with real-time updates.

2. Dynamic Routing

Dynamic routing enables product detail pages that load based on unique product identifiers (ID/slug). These pages are server-rendered to enhance SEO and speed, displaying detailed product info like descriptions, prices, stock status, and reviews. It ensures automatic page generation for new products.

Amber Haven

Rs. 150.00

Step into a world of warmth and tranquility with Amber Haven—a collection inspired by the golden glow and timeless beauty of amber. This sophisticated line combines the soothing hues of amber with elegant, contemporary design to create a space that feels both welcoming and luxurious. Ideal for those seeking a serene escape, Amber Haven infuses your home with a sense of calm, warmth, and understated elegance. Crafted with high-quality materials and a keen eye for detail, each piece in the Amber Haven collection is designed to evoke feelings of comfort and relaxation. The soft, amber-toned accents, paired with sleek lines and refined craftsmanship, bring a touch of nature's beauty into your home. Whether you're furnishing your living room, bedroom, or dining space, Amber Haven creates an inviting atmosphere that radiates peace and sophistication. The collection's warmth and versatility allow it to seamlessly integrate into various décor styles, from modern to traditional, making it a perfect choice for those who love both timeless elegance and contemporary flair. Amber Haven offers a sanctuary of comfort and luxury, where every piece is designed to enhance your home and your well-being. Key Features: Warm amber tones and elegant design create a cozy, inviting ambiance. High-quality craftsmanship and materials ensure durability and long-lasting appeal. Versatile style complements a variety of interior designs, from modern to traditional. Perfect for creating a serene and luxurious space in any room. Ideal for those seeking a combination of beauty, comfort, and sophistication. Bring the golden glow of Amber Haven into your home—where warmth, luxury, and timeless design come together to create a peaceful and elegant retreat.

3. Cart System

The Cart tracks items added by users, updates quantities, and calculates costs in real-time. A mini-cart provides a quick overview, while the detailed cart page offers item management options. Cart data is preserved using local or session storage, ensuring persistence across page refreshes.

4. Checkout Frontend Design

The frontend design of the checkout process focuses on a clean and user-friendly interface. Each step (billing, shipping, payment) is presented clearly. The design is mobile-friendly, ensuring the checkout process is as efficient on small screens as it is on desktops.

5. Related Products on Product Detail Page

The Product Detail Page includes a “Related Products” section to suggest alternative or complementary items. The related products are presented in a grid layout, making it easy for users to browse additional options without leaving the current page.

The image shows a 'Related Products' section on a website. It features a grid of four product cards. Each card has an image of a product, a title, a short description, and a price. The products are: 'Rustic Vase Set' (Rp 210), 'Timber Craft' (Rp 320), 'Amber Haven' (Rp 150, marked 'New'), and 'Vase Set' (Rp 150). Below the grid is a 'Show More' button. The footer of the page includes the 'Furniro' logo and links for 'Links', 'Help', and 'Newsletter'.

Integration with Sanity CMS

Sanity CMS serves as the backend for managing product data. With real-time updates and an extensible design, changes made in the CMS are instantly reflected on the frontend. The CMS allows easy updates to product data without requiring codebase changes.

Conclusion: This documentation outlines the functionalities powering the dynamic marketplace, highlighting the seamless integration of Sanity CMS and scalable frontend components. These features, from product listings to Cart system, are designed to deliver a flexible and efficient shopping experience.
